

## AGB Series

Service Deli Merchandiser with Optional Shelving and Optional Heights

### Standard Features:

- Painted metal exterior
- Stainless steel interior and case top
- Stainless steel trim and outside back
- Choice of regular glare glass
- Flat bottom deck
- Reflective rear load doors
- Open dry rear storage
- Dual canopy lights
- Solar digital thermometer
- Gravity coil refrigeration

### Self-Contained

- Copeland compressor
- Electric condensate dissipater
- Automatic defrost
- Internally equalized expansion valve
- Back to front condenser airflow

### Remote

- Thermostat
- Liquid line solenoid and expansion valve

### Available Options:

- Mirror polish stainless steel or glass ends
- Interior and exterior brass trim
- Exterior standard grade laminate
- Interior and exterior stainless steel finish
- Cart bumper
- Color accent band
- Front load doors
- Hinged rear or front load doors
- Lockable rear load doors
- S hooks for hanging display
- Promolux lamps
- Refrigerated lower storage with front or rear access
- ISO outlet
- Painted metal, stainless steel or wire shelves
- Wood slat shelving
- Fiber optic lighting
- Alternative case thermometer
- Electronic temperature sensors
- Liquid line ball valve
- Suction line solenoid
- Energy efficient fans
- Extended compressor warranty

Engineered for stores with ambient conditions not to exceed 75 degrees and 50% relative humidity. Due to engineering improvements specifications may change without notice.

The Aged Beef Case has a dual coil design that prevents temperature stratification and product dehydration of aged beef and other product. It incorporates an Extended Capacity Distributed Gravity coil to maintain high interior humidity; while the Serpentine coil aids in natural convection and cooling. The design also incorporates an EPR temperature control to prevent temperature fluctuation and a suction line solenoid for a positive defrost. The combination of constant temperature and natural convection allows high end product to be merchandised with minimum product shrink..

## APPLICATIONS

- Gravity coil refrigeration
- Medium temperature (36° - 38°F)
- Multi deck gourmet merchandiser
- For refrigerated service deli items
