DISPLAY CASES

Please consult Hill PHOENIX Engineering Reference Manual for dimensions, plan views and technical specifications. Specifications subject to change without notice. Designed for optimal performance in store environments where temperature and humidity do not exceed 75°F and 55% R.H. Certified to UL 471 and ANSI/NSF Standard 7.

### Standard Options:

- Available length: 8'
- Honeycomb inner flue directs cold air over product to flow across shelves for consistent temperature.
- Available shelf sizes: 10", 12", 14" and 16".
- Adjustable wire display racks with multiple rear wall and front wall positions for optimal merchandising ease.
- Wire or Plexiglas shelf package stops provide neat, appealing displays.
- Optional electrical outlet can be installed in kickplate for easy power access.
- Optional 7" straight thermopane glass or 8.75" curved Plexiglas front sills offer good product visibility while helping to maintain consistent product temperatures.
- ECM energy-efficient fan motors available.
- Standard off cycle defrost for cost-effective operation; electric or hot gas defrost also available.
- Exclusive SmartValve™ energy-saving technology available.
- Environmentally-friendly Second Nature® secondary coolant application available.

### Features and Benefits:

- Unique design ensures uniform case performance and lower average product temperatures with optimum energy efficiency.
- All-steel construction for increased life span and structural integrity.
- Seamless tank liner provides positive drain runoff and enhanced sanitation.
- Integrated two-part polymer bumper systems provide unparalleled protection and durability.
- Removable castors for easy merchandiser unloading, movement and placement.
